

Asset Performance Management

ASSET PERFORMANCE, RELIABILITY & SAFETY

A HIGHER LEVEL
OF RELIABILITY®

WHAT WE DO

MAXIMIZING RELIABILITY THROUGH SMART DATA & INTEGRATED SYSTEMS

- Equipment Master Data
- Inspection Data
- CMMS Data
- Operations Data

- Risk-Based Inspection
- Condition Monitoring
- Basic Asset Care
- Lubrication

- Precision Work
- Lubrication
- Preventative Maintenance
- Work Management

- Loss Avoidance
- Criticality
- Root Cause Failure Analysis
- KPI's and OEE Reporting

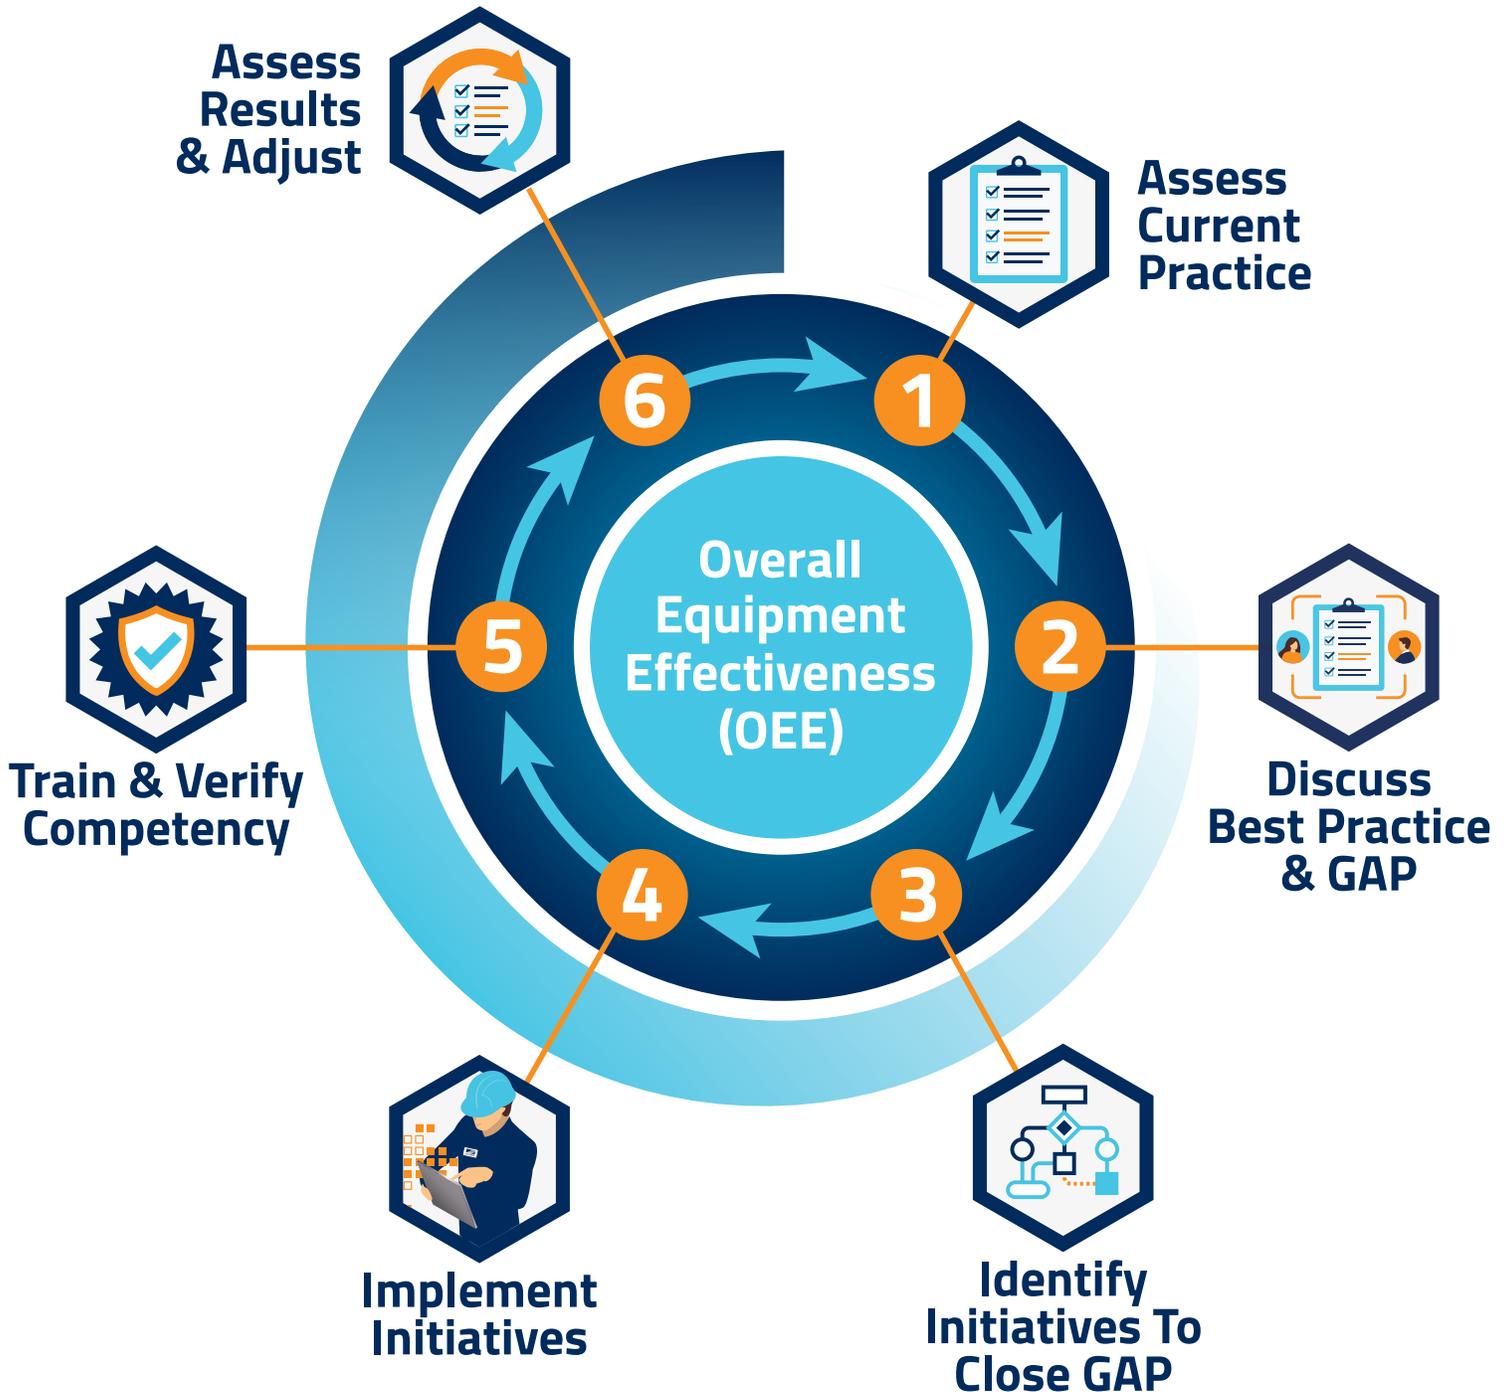

Acuren's reliability engineering integrated services provides a turnkey solution that reduces clients' overall cost to operate.

SAFE | PRODUCTIVE | RELIABLE

OUR PROCESS

Our process develops skillsets in your team from which you will gain in-house competencies to boost your CMMS, optimize your preventive maintenance, gain efficiency from inspection and condition monitoring, and maximize uptime.

Our proven process begins onsite with an informal assessment of your practices. The outcome is clear direction and collaboration with your team to move forward. The cadence of our services is shown:

BEYOND INSPECTION
